About Us

Rast Family Farms have been in operation since 1889, harvesting generations of appreciation for hard work, honesty, and dependability. Southern living at it's finest, and hardest of times. Through it all – we pull together, for the love of God, Family, Land, and Selflessness.

Jesse Rast Enterprises has taken the family values from decades of farming, planting the seed for a better way to procure farm and agricultural equipment by eliminating “the man”, speeding up delivery, and doing what’s right. Family is special and we choose to specialize in farm and agricultural equipment.

Unlike traditional distribution, Jesse Rast Enterprises runs the equipment that is available in our portfolio.

Farm life is not transactional, and you will feel the difference in honest guidance and feedback by becoming a part of the Jesse Rast Enterprises family.

JESSE RAST ENTERPRISES

The Rock n' Root Rake

Like all Harrell products, this machine is **BUILT TO LAST** in the toughest conditions. For improved productivity in your land clearing operation, the Harrell Rock n' Root Rake is the solution for you!

- Independently floating wheels.
- Unique wheel finger design for cleaner raking
- Adjustable raking widths with steerable rear wheels allows widths up to 12 ft. wide.
- Rake wheels made of abrasive resistance steel to insure longer wear life and performance in the toughest conditions.
- Off set rake position allows tractor to operate in clean ground for faster operating speeds.
- Steel hydraulic tubing lines with JIC fittings to insure sealed connections without leaks.
